(Note: The retail sales statistics in the 1995 edition of the *Survey of Buying Power*, which lists data for 1994, are based on newly published benchmark data from the 1992 Census of Retail Trade (CRT). Prior to this year, retail figures reported in the Survey were based on data from the 1987 Census [unlike the general Census, the CRT is conducted in five year intervals]. Whenever such an adjustment is made, trends in lines that fall across benchmark year are often skewed, a fact readers should keep in mind when comparing retail sales figures for 1994 and thereafter to those from prior years.
